
Louise Lindh new President of Fastighets AB L E Lundberg

Louise Lindh has been appointed new President of Fastighets AB L E Lundberg, a wholly owned subsidiary of L E Lundbergföretagen AB. Louise will assume her position on January 1, 2017 and succeeds Peter Whass, who has been President since 2004.

Louise holds a degree in business administration and has worked in various positions in the company since 2005. She has held the role of Executive Vice President and Regional Manager Stockholm since 2008.

“It’s an exciting challenge to be given the opportunity to lead Fastighets AB L E Lundberg. Driven by, for example, digitalization, our customers’ needs are rapidly changing and we are taking major steps forward to meet these new requirements. By developing sustainable urban environments that create positive conditions for housing, commerce and offices, we can contribute to enhancing people’s quality of life. I am taking on this role with a great sense of respect – a role that both my father and grandfather have held,” says Louise Lindh.

“I am very happy that Louise is willing to take on the role of President. She knows the company well, has solid knowledge and experience, as well as having a high energy level,” says Fredrik Lundberg, Chairman of Fastighets AB L E Lundberg.

Peter Whass has been appointed Executive Chairman of Byggnads AB L E Lundberg, with responsibility for project development. He will also remain on the Board of Directors of Fastighets AB L E Lundberg.

“Over the course of nearly 13 years, Peter Whass has done a fantastic job in developing Fastighets AB L E Lundberg in his role as President. The operations have been expanded and, in recent years, an extensive project business has been established. We are very grateful for the efforts he has made for the company and are pleased that he will remain in a new role,” concludes Fredrik Lundberg.
